Noida, India | +91 9621490984 | arjun9621bhtr@gmail.com | LinkedIn

QA AUTOMATION ENGINEER | SDET | PLAYWRIGHT | FUNCTIONAL TESTING | API TESTING | CI/CD

PROFESSIONAL SUMMARY

QA Engineer with 4.5+ years of experience in Functional and Automation Testing, specializing in designing and developing scalable Playwright automation frameworks using JavaScript. Strong expertise in Functional, Regression, Smoke, Sanity, Integration, End-to-End (E2E), User Acceptance Testing (UAT), API Testing, and SQL validation across web and SaaS applications. Experienced in building end-to-end UI and API automation solutions using Page Object Model (POM), reusable utilities, fixtures, and data-driven testing practices. Skilled in automating complex business workflows, authentication, file upload/download, multi-tab operations, and API validation using Playwright Request Context. Proficient in cross-browser testing, parallel execution, environment-based configuration, Allure reporting, and CI/CD integration using GitHub Actions and Jenkins. Strong experience in Agile methodologies, requirement analysis, test planning, defect lifecycle management, mentoring junior QA engineers, and improving automation framework maintainability.

SKILLS

Automation:	Playwright (Test Runner, Fixtures, Parallel Execution), Page Object Model (POM), BDD Cucumber
Programming:	JavaScript (ES6+), SQL
API Testing:	REST API, Postman, JSON Validation, API Automation (Playwright), API Documentation
CI/CD:	GitHub Actions, Jenkins
Functional Testing:	Regression Testing, Smoke Testing, Sanity Testing, Integration Testing, System Testing, End-to-End (E2E) Testing, User Acceptance Testing (UAT), Cross-Browser Testing, Exploratory Testing, Defect Logging, Defect Tracking
Reporting:	HTML Reports, Allure Reports, Test Artifacts
Tools:	Jira, VS Code, Chrome DevTools, Postman
AI & AWS Services:	Amazon S3, AWS Elemental MediaConvert, AWS Elemental MediaLive, AWS IVS, Amazon Transcribe, Amazon Rekognition, Amazon Bedrock, Intelligent Thumbnail Generation, Video Semantic Search, Metadata Enrichment, AI Content Moderation

WORK EXPERIENCE

AppSquadz Software, Noida
QA Engineer — Jan 2024 Present

- Automated **50%+** of regression test coverage using Playwright, significantly reducing manual testing effort and accelerating release cycles.
- Designed and maintained a scalable Playwright automation framework using JavaScript, Page Object Model (POM), reusable utilities, and data-driven testing.
- Executed Functional, Regression, Smoke, Sanity, Integration, End-to-End (E2E), and User Acceptance Testing (UAT) to ensure application stability and business requirement compliance.
- Automated REST API validation using Playwright Request Context and Postman, ensuring accurate request/response verification and backend validation.
- Optimized regression execution by implementing Playwright parallel testing, reducing overall execution time.
- Developed reusable page objects, helper classes, fixtures, and JSON-based test data to improve framework maintainability.
- Integrated Playwright automation with GitHub Actions and Allure Reports for continuous regression testing and automated reporting.
- Collaborated with cross-functional teams to identify, reproduce, and verify defects using Jira, improving release quality.
- Conducted exploratory testing to identify edge cases and improve overall application quality.

Saffo Solution Technology, Mumbai
QA Engineer (Contract) — Sept 2023 – Dec 2023

- Executed functional, regression, smoke, sanity, and exploratory testing for Android applications to ensure application quality.
- Reviewed business requirements, user stories, and acceptance criteria to prepare comprehensive test scenarios and test cases.
- Conducted end-to-end testing of mobile application features across different Android devices and OS versions.
- Identified, documented, and tracked software defects using Jira while working closely with developers for timely resolution.
- Verified user interface consistency, navigation, responsiveness, and overall user experience across supported devices.
- Executed regression test suites to ensure new changes did not impact existing application functionality.

QASource, Chandigarh
Associate SDET — Feb 2022 – July 2023

- Executed manual testing activities including Functional, Regression, Smoke, Sanity, Integration, and System Testing.
- Developed and maintained UI automation scripts using Playwright with JavaScript.
- Created and executed detailed test cases, test scenarios, and test plans based on business requirements.
- Validated REST APIs using Postman and verified backend data using SQL queries.
- Performed cross-browser and responsive testing to ensure application compatibility.
- Reported and tracked defects using Jira throughout the software development lifecycle.
- Participated in Sprint Planning, Daily Stand-ups, Sprint Reviews, and Retrospectives following Agile methodology.
- Collaborated with cross-functional teams to ensure high-quality software releases.

EDUCATION

B.Tech - Computer Science Engineering
Chandigarh University | 2017 – 2021

ACHIEVEMENTS

🏆 **The Ultimate Bug Basher** – Received internal recognition at **AppSquadz Software Pvt. Ltd.** for exceptional defect detection, proactive testing, and maintaining high software quality standards.
